From the *Deseret News* to May 20:—

Tabby (the sun), and To-quer-oner (black fox), with some of their men, at Salt Lake City, on a visit to Col. Tourtelotte, Superintendent of Indian Affairs for the Territory, talked and felt first rate. They said they were not going to steal, and that their men had gone to the settlements to get tshut-cup (bread). Thirty lodges, under An-ter-ro-ve-yea-hoo, had gone to fight the Sioux, and twenty lodges had gone to Wash-i-kie to trade. They reported that the Navajos, or Pah-witches, were a good deal disaffected; but as soon as they (Tabby and To-quer-oner) returned, they said they would send a delegation of their men to invite the Navajos to come in and trade, stop stealing, and be friends with the Mormons. They also reported that Hawes, a soldier discharged from Bridger, who was killed last winter at the junction of White and Green rivers, met his death at the hands of Elk Mountain Indians.

Mr. M. J. Shelton, Government Interpreter for Uinta, reported that the Tabbywatts, Piemps, and Yampa-Utes, from the White River country, the Uinta-Utes, Snakes, Bannacks, and other northern tribes of Indians were assembling in the Bannack country, fifty miles east of Bear Lake Valley, to perform their traditional religious rites. They meant peace, and, when through with their rites, would disperse.

Charles C. Rich, jun., reported Bear Lake Valley free from grasshoppers, with every prospect of good crops. The "Bear Lake monster" had come up again. Marion Thomas and three sons of Phineas H. Cook were on the lake in a boat, fishing, opposite Swan

Creek, and came near his ma Thomas "describes its head as He saw about twenty feet or was covered with hair or fur, an otter, and light brown. bers, extending from the u body, which he compared to oars. He was so near it that a rifle he could have shot it."

The *News* says, "From present may look for a continuance of this country. There never was the history of this Territory men experienced such difficulties along as they do at present. ing man finds it equally hard money and other good pay scarce. There appears to be a ness or stagnation in business north and south in other States as well as this. The difficulty altogether owing to the scarcity of other produce in the country live, for of these there are rather to the general inclination vails to take in sail. Circumstances are shaping in such a manner to board and clothe ourselves, importing everything raised for port, or at least supply our own
